# GERMAN CHANCELLOR QUILTS; BERLIN UNDER MARTIAL LAW

(BY ATLANTIC CABLE AND A. P.)  
**LONDON, Friday, Sept. 6.**—Count George F. von Hertling, the imperial German Chancellor, has resigned, giving bad health as the cause for his retirement, according to the Geneva correspondent of the Daily Express, quoting a dispatch received in Geneva from Munich, Bavaria. (The Chancellor is believed to have been forced to resign for intimating that Germany is near defeat.)

(BY ATLANTIC CABLE AND A. P.)  
**AMSTERDAM, Sept. 5.**—A decree signed by Gen. Von Linsingen, commandant of the Brandenburg province, according to the Cologne Volks Zeitung, places the city of Berlin and the province of Brandenburg, under "the law relating to a state of siege, which provides for a fine or imprisonment for persons inventing or circulating untrue rumors calculated to disquiet the populace."

Hidden among the bullrushes and in the hollows and the reed beds of the branches of the river, the Germans were able to use their quick-firing effectively, compelling the pursuers to slow up their progress. Gen. Humbert's men built foot-bridges under the enemy's fire. The first bridge was destroyed, but the river was under the fire of German machine guns, compelling the pursuers to slow up their progress. Gen. ### LATER DISPATCHES GERMAN SOLDIERS DEJECTED.

(BY ATLANTIC CABLE AND A. P.)  
**WITH THE FRENCH ARMY IN FRANCE, Sept. 5.**—Thousands of letters taken from prisoners during recent engagements show that the German army is suffering even more from depression and discouragement than from depleted numbers.  
In letters written home both by officers and men the expressions most recurring are "We have been fooled" and "We have been betrayed." A staff officer was quoted by one of his officers in a letter as having said, "Something is giving way."  
Officers made prisoner generally have seized upon the significance of the intervention of the United States in the war, admitting they were deceived regarding the possibility of the transportation of a great American army overseas. Only the younger officers who have had little experience maintain the air of arrogance and confidence that characterized all the Germans a few months ago. All the other prisoners are far different from the captives taken previous to the July offensive. They are tired and depressed and disgruntled, sometimes positively hostile to the German high command. Generally they have but a single hope—that Germany will be able to hold out on a shortened line and compel the Allies to declare the war a draw.

### LAON CATHEDRAL IN VIEW.

(BY ATLANTIC CABLE AND A. P.)  
**WITH THE AMERICAN ARMY IN FRANCE, Sept. 5.**—On the fourth anniversary of Gen. Joffre's command to the French army to halt, face about and stand ready for the battle of the Marne, the Americans, swarming out upon the plateau between the Vesle and the Aisne, were encouraged by the sight of the famous twin towers of the Cathedral of Laon, directly to the north, silhouetted against the smoke of battle.

Between the cathedral and the Americans were several German observation balloons and here and there from elevations north of the Aisne came great puffs of smoke arising from the German artillery.

### BATTLE BULLETINS.

(BY ATLANTIC CABLE AND A. P.)  
**FROM OFFICIAL REPORTS.**  
LONDON, Sept. 5.—The British have made further progress along their front north and south of Peronne, according to Field Marshal Haig's report to-night. British patrols have been able to cross to the east bank of the Canal du Nord south of Marquion.

Marked progress was made by the British last night along the Flanders front, according to today's War Office report. Ploegsteert village has been captured, as has Hill 62, southwest of Messines. On the Lys front the British hold the general line of Voormezele, Vulverghem, Ploegsteert, Nieppe, Laventie and Ginchy. From Neuve Chapelle southward to Ginchy the British have reached the line they held up to the German attack on April 9, last, while to the eastward of Ginchy sections of the old German positions have been taken. On the battle line in front of Cambrai an improvement in the British position south of Moeuvres is reported. The positions to the east of Hermies, near the Canal du Nord, just to the south, also have been improved. Still further south the British have captured the village of Neuville-Bourjoulx, east of the Canal.

### REPEATED DISASTERS IRREMEDIABLY RUIN KAISER'S FORMIDABLE ARMY OF LAST MARCH.

(BY ATLANTIC CABLE AND A. P.)  
**PARIS, Sept. 5.**—The enemy is in retreat along the whole line from Ypres to Rheims. Honors yesterday were with the French and Americans of the Allied wing which at last gained the reward of several days of persistent effort.  
The enemy, who has lost heavily in men, announces by a hurried destruction of material his intention of abandoning, if he has not already done so, Chauny, Jussy, La Fere and probably Ham. There can be no doubt of his retreating in a general direction of St. Quentin to take up the positions of the Hindenburg line that he held after the strategic withdrawal in 1917.  
The Allies soon will have recovered all ground lost since March and shall have gained east of Arras a position which is a permanent threat to Douai and Cambrai. In addition, in less than six months Ludendorff will have irretrievably ruined the effectiveness and morale of those German armies that were so formidable in the West at the beginning of the year.  
LONDON, Sept. 5.—The important progress of the British yesterday exceeded popular expectation.  
Attention is focused on the Franco-American successes, which culminated with Wednesday's crossing of the Vesle and Aisne.  
After engagements which put out of action some of Germany's best divisions and heaped the ground with German dead, the Franco-American troops now hold virtually the entire plateau north of Soissons, whence they are able to observe the enemy preparations for a retreat which apparently is to be to the Chemin des Dames.  
For six miles along the Aisne, it is stated, bridges have been built every 500 yards to facilitate the withdrawal of the hard-pressed German forces.  
The position of the enemy in this area seems increasingly critical.

### STEADY POUNDING OF ENGLISH CRUSHES GERMAN RESISTANCE.

(BY ATLANTIC CABLE AND A. P.)  
**WITH THE BRITISH ARMY IN FRANCE, Sept. 5.**—The effects of the recent British successes are hourly becoming more apparent. The enemy is steadily, but surely, going back. Successive minor victories in Flanders, the application of sustained pressure in the battle zone south of the Scarpe, the exploitation of the advances north of Peronne and the steady bombardment from the British cannon are all helping the general movement.  
The foe's retirement is being marked by the usual destruction, by fire and explosions are reported from various sections, especially the area in front of the Hindenburg line from the Bapaume-Cambrai line southward, where the torch seems to have been freely used.  
It looks as if the Germans here were going behind the line, with its great system of concrete dugouts and defenses. They are not in the habit of destroying where they mean to stay, and besides, the crushing defeat they suffered when the Drocourt-Queant line was smashed makes this ground exceedingly difficult, if not dangerous, to hold.  
On the banks of the Somme, south of the southeastern outskirts of Peronne, the enemy is manning his machine guns and trench mortars strongly and firing heavily on the crossings and their approaches, apparently fearing a British attempt to cross.  
At the same time the suburbs of the southeastern outskirts of Peronne, where the German machine gunners have also been holding out desperately, have now been cleared of the enemy, so that the position of the Germans on the east bank of the Somme is becoming increasingly precarious.  
Along the banks of the Canal du Nord, in the region north and south of Incheville-Artois, strong German reinforcements have come up, and they are holding in some places, especially back of Moeuvres, the western spoil bank, with immense numbers of machine guns. As yet they have not been really attacked by the British in any force. It is not at all unlikely, however, that the Germans will try to consolidate their line in this locality with the Hindenburg line at some point farther south.  
It was through a somewhat analogous situation that the Drocourt-Queant switch line was established after the enemy was forced back from the original Hindenburg line in front of Arras. The old Hindenburg line itself does not run straight north and south. To the south of the Drocourt line it swerves sharply to the east and then falls off southward. It is the eastern stretch that the British have been clearing of the Boche. The Germans may try to establish a new defensive line, which would run almost directly north and south, joining the Hindenburg line at some point southwest of Cambrai, but there are indications that the enemy is by no means sure that his efforts will meet with success.  
The fact that as soon as the Drocourt-Queant line was smashed the Germans retreated from the ground behind it, which is of first importance to the retention of their defenses in the north and south, without making a single formidable effort to regain their lost positions by counter-attacks, is considered proof positive of the enemy's weakness in this area.  
The fact that the German command has hesitated to withdraw any considerable troops from other sections of the front for the operations here is taken to mean that the German command fears that

### WITH THE AMERICAN ARMY.

(BY ATLANTIC CABLE AND A. P.)  
**WITH THE AMERICAN ARMY ON THE AISNE FRONT, Sept. 5.**—With the exception of a few machine gun detachments left to sacrifice themselves in an effort to cover the retreat, the Germans were on the north side of the Aisne to-night.

The American and French troops, who have followed closely on the heels of the enemy since the evacuation of the Vesle village began, were still in contact, harassing the rear guard and hastening the movement of the whole force. Long before nightfall the Americans had worked their way down into the lowlands towards the Aisne off the plateau from which they had been able to look over the next valley at the cathedral towers in Laon.

At that point is located the heart of the present German operations. Laon is a great communication center.

The retirement of the Germans to positions north of the Aisne is regarded as only preliminary to the recapture of their old lines of defense along the Chemin des Dames. With their recrossing of the Aisne the second phase of the retreat from the Marne is ended.

In the first phase they were driven back mile by mile and desperate fighting marked almost every bit of the territory yielded. In this case it was, in fact, a strategic retreat and has cost comparatively little in men and munitions.  
So steady and rapid was the withdrawal of the Germans carried out that French cavalry was employed today to maintain contact at one or two points, the cavalry also contributing to the location of machine-gun nests.  
The Americans were subjected at times to a rather heavy artillery fire, especially while going over the plateau. For about two miles it was necessary for them to advance over high ground, plainly visible to the German observers. There was little cover and both heavy and light artillery was directed against them with effect and without checking in any degree the forward movement.

"The presence of an American  
army, which is constantly increasing,  
has brought about negotiations be-  
tween the French and American  
governments. Without awaiting a  
conclusion of these four parties,  
the American treasury has placed a  
special credit of \$100,000,000 at the  
disposition of the French treasury,  
which has transferred it to the Bank  
of France on the basis of metallic  
parity, thus reducing advances by

## RIGHT TO EJECT FORMER WIFE.

Action of a Housekeeper is Sustained by Court.

Visit to Children Contrary to Divorce Order.

Aftermath of Remley Case Before Police Judge.

An echo of the Remley divorce case, recently tried before Superior Judge Wood, was heard in the Police Court yesterday when Mrs. Sadie Miller, housekeeper for Russ Remley, at No. 441 North Commonwealth avenue, was found not guilty on a charge of battery growing out of a visit paid by Mrs. Ada Remley, the divorced wife, to the home of her former husband.

According to the testimony, which was heard by Police Judge White sitting in Judge Frederickson's place, Mrs. Miller called to see her three children, who had been placed in the custody of Mr. Remley, on a date other than that specified in the order made by Judge Wood. After being admitted to the house, she later was ejected by Mrs. Miller. Mrs. Remley said she believed she had a right to go on the date she did, and held that Mrs. Miller used undue force in ejecting her from the house, striking her in the face several times.

Harold Remley, 14, and Charles,

## THREE MILLIONS IS TOTAL CASH.

Figures on City's Assets are Given by Treasurer Powell.

Los Angeles now has \$3,466,452.37 cash on hand. These figures are given when City Treasurer Powell, who struck a balance yesterday for August, submitted his report to the City Council.

He listed the total amount of cash and securities at \$15,315,932.37. Disbursements for August were \$1,489,109.35. The receipts were \$238,546.13. Cash on hand at the beginning of August totaled \$4,815,915.49.

10 years old, were the witnesses in addition to Mrs. Remley and Mrs. Miller. Mrs. Miller denied striking Mrs. Remley and declared she only pushed her out of the room when Mrs. Remley attempted to incite the children against her and Mr. Remley. In view of the testimony and the order of the Superior Court, Judge White declared Mrs. Miller was within her rights in ejecting the mother from the house.

"The case is all the more regrettable because the children, like children of all divorced parents, are in a state of confusion," Judge White said in reviewing the case.

IN PATRIOTIC HALL. Clara Barton Tent, No. 14. Daughters of Veterans, will meet tomorrow evening, in Patriotic Hall, No. 1316 South Figueroa street.

## WERDIN HINTS DAMAGE SUIT.

Promises Reprisal to Charge of Supervisor.

Hamilton Says Contractor Tried Corruption.

"One's Word Against Other's," Says Woolwine.

"It is a hard-boiled lie," was the statement yesterday of Ernest R. Werdin, president of the Los Angeles Paving Company, in reply to charges made by Supervisor John J. Hamilton before the county grand jury that Mr. Werdin had made a "corrupt proposal" to him with respect to obtaining a salary raise for three deputies employed in the civil department of the Sheriff's office.

Both Hamilton and Werdin went before the grand jury at the afternoon session. Dist. Atty. Woolwine announced after the adjournment that the body then had a controversy involving one man's assertions against another's.

Hamilton charged lack of substantiation and I fail to see where a grand jury investigation will produce any result," said Mr. Woolwine.

Mr. Werdin, after his appearance before the county body made a statement in which he severely criticized Supervisor Hamilton for "willfully making a campaign question out of my duty in the interest of the three deputies."

He promised sensational developments, hinting at legal action.

"I have lived in Los Angeles thirty-two years and I am perfectly willing to place my record beside that of Mr. Hamilton," said Mr. Werdin.

HIS SIDE OF IT.

The deputies, Murietta, Eugene W. Biscailus and A. C. Jewel, understanding that Hamilton had consistently opposed a raise in their salaries, had no visit him. I went to the Supervisor's office out of the goodness of my heart to try to do something for county employees whom I considered underpaid.

"I raised a matter of \$30 for the three. I interviewed Hamilton and he told me Supervisor Wood had said he would not raise the salaries until next July. I had been informed that Hamilton was the sole Supervisor who stood out against the raise. If he would get into line, I was told, the boys would secure their raise."

"During the course of my conversation with him there was absolutely no mention made of a so-called 'corrupt proposal' or a 'bribe.' When I went to the Sheriff's office to bring the matter before the grand jury, Hamilton simply sat down and argued this case out against me for his own political aggrandizement."

He stated that I offered free automobiles, speakers and other political paraphernalia to boost his campaign on condition that he vote to raise the salaries of the deputies. The question is, Where would I get off at by doing these things?

Supervisor Hamilton is simply demonstrating his incompetency by making public such absurdities. His case calls for a psychopathic ward diagnosis. I venture to say that if anyone asked him to locate the boundary line of the county he would fall to do so. I have lived here thirty-two years and I know them."

WHAT DEPUTIES SAY.

Murietta is chief deputy in the office of Sheriff Cline, where he has served thirty-two years. His present salary is \$175 and he is asking a raise to \$200. Biscailus has been twelve years as assistant chief deputy at a salary of \$125 monthly. He is asking \$150. Jewel, who is personal property sales clerk, has served eight years at \$100 and desires it raised to \$125. It is understood that Sheriff Cline, according to the deputies, has supported their fight for a raise. He is at present in San Francisco.

"We are simply demanding adequate compensation for long service," said Biscailus last night.

Mr. Werdin was in the office the other day and he volunteered to take up the question with Supervisor Hamilton at our request.

All the Supervisors have been interviewed in the past by Sheriff Cline as well as by many important Los Angeles attorneys in our behalf and it was understood that Supervisor Hamilton was the only outstanding Supervisor against the proposition."

BROWN INDICTED.

Lodge Man Faces Felony Charge as Result of Whipping His Son.

Henry W. Brown, prominent in lodge circles in Los Angeles and Santa Monica, was indicted by the county grand jury late yesterday afternoon following an investigation into charges that he beat his 13-year-old son with a rawhide whip in his home in Venice a week ago.

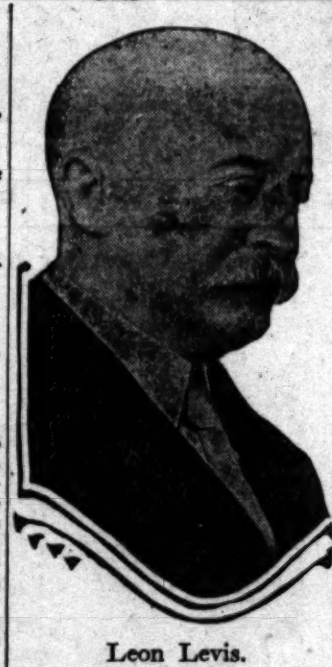

Brown was produced by his attorney, Michael Shannon, at the District Attorney's office where he was rearrested on a charge of "assault by means likely to produce bodily injury," a felony. Bail was fixed at \$3000 which his lawyer furnished and was released pending his trial. Conviction of the charge carries with it an indeterminate sentence of from one to two years in the State Prison.

Young Brown told the grand jury that his father did not mean to hurt him and therefore he did not wish to see him punished.

Other witnesses examined in relation to the alleged beating were Miss Reneta Lazicki, nursemaid in the Brown household in Venice; Dr. Charles W. Bryson, dean of the Angeles Hospital, who examined the boy's wounds the afternoon of the alleged beating; and Mrs. W. S. Kinback of No. 1325 De Long street, a sister of Mrs. Brown.

death said to have been hastened by the worries of the litigation, dating from an examination in court at Prescott, Ariz. The case was heard by Judge J. A. Ellis of Mohave county, but he retired from the bench before its determination. Judge Frank Loman of Maricopa county was called in and a date for hearing had been set, only to be postponed on information that a settlement might be reached.

The recent conference in Los Angeles which led up to the present settlement was adjourned to Prescott, where the compromise agreement was submitted to Judge Loman. With his approval there came an end to the litigation.

LONG BEACH WOULD SOLVE FLOOD PERIL.

PROPOSES THAT GOVERNMENT CUT CHANNEL AS A WAR MEASURE.

A delegation from the right-of-way committee of the Long Beach Chamber of Commerce suggested a plan to the Board of Supervisors yesterday by which the industries at the harbor will be relieved from floods this winter. This plan is to take up with the Secretary of War the question of cutting a channel 350 feet wide and three-fourths of a mile long from Cerritos Slough to the ocean.

The government might do this work as a war measure, requisitioning the land and beginning the construction of the channel immediately. It is pointed out that if the usual process is undertaken by the county—that is, by condemnation suits to obtain the right of way—it is hardly probable that the channel provided for in the flood control system could be undertaken for several months.

It was set forth that the many new industries at the harbor will be endangered by floods this winter unless a temporary channel is constructed to carry the waters to the ocean. If the government accepts the proposition and constructs the channel as a war measure, the county will subsequently widen the temporary channel to 720 feet, the full width planned.

It was suggested by the delegation that Flood Control Engineer Reagan be sent to Washington to lay the matter before the Secretary of War in order to obtain speedy action. It also appeared that the Long Beach committee had conferred with Capt. Charles T. Leeds, United States engineer, and it was reported that the matter be laid before the Supervisors here.

The Supervisors will confer with Capt. Leeds this afternoon, and at that time they will decide whether to send Mr. Reagan to Washington.

FOR SAN FERNANDO VALLEY EXTENSIONS.

Authorization by the Council of the purchase of equipment with which to make a survey of power and light service in the San Fernando Valley was the outcome of a conference between city power officials and members of the City Council yesterday.

CASE CONTINUED.

The trial of Harry Raymond, Venice Chief of Police, on a grand jury indictment charging false imprisonment of James Alexander Johnston, a wealthy drug manufacturer of Toronto, was continued by Judge Houser yesterday, until September 10, because of a crowded court calendar.

## FOR SYSTEM IN OUR WAR WORK.

Co-ordination of Activities Here is Sought.

State Defense Council will Have Direction.

Plan to be Worked Out to Use Precinct Bodies.

Meetings of the Los Angeles division of the State Council of Defense and of the governing committee of the Los Angeles County War Savings Society were held yesterday and plans were laid for co-ordination of war work activities under the direction of the State Defense Council.

At a meeting last night of the War Savings Committee Governing Board, presided over by Willis H. Booth, a committee consisting of Boyle Workman, George L. Eastman and Mrs. J. T. Anderson was appointed to confer with the local division of the State Council to work out a plan for using 1200 precinct organizations of war savings societies for all Red Cross, Liberty Loan, Knights of Columbus, Y.M.C.A., and all other war work drives, and thus avoid duplication of organization.

The plan provides for the appointment of a Vice-Chairman in each precinct by the State Council to have charge of each individual drive.

The local division of the State Council met yesterday and continued its work of co-ordinating all local war activities. Motley H. Flint was appointed treasurer of the committee, Victor Rossetti, Fuel Administrator, was appointed to investigate the matter of working out early closing and one-delivery plans for retail stores, and Mr. Flint and Henry S. Gaffey, George S. Patton, committee to confer with the War Savings Committee plan for utilizing the precinct organizations for all war work drives.

The governing board of the War Savings Committee last night decided to accept the resignation of Willis H. Booth as chairman, which he desired to tender as he is going to San Francisco.

In his absence, however, Mrs. J. T. Anderson, as vice-chairman, will preside over the governing committee.

A great fleet of twenty airplanes will fly over Los Angeles city and county tomorrow morning, September 11 and 11:30 o'clock, en route from San Diego to Pasadena. It will carry a cargo of war savings bulletins and will bombard the entire county with the Governor's proclamation for the special War Savings Day, September 12, and patriotic message to the War Savings Society members, urging their co-operation in the work-programme of "Round-up Week," which ends September 9.

"Who Will Win This Battle?"

Your kidneys are the filters of the body. If they become inactive and fail to eliminate the waste matter, they are apt to throw the whole mechanism of the body out of order, thus toxic poisons can build up in the system and be as deadly as snake venom.

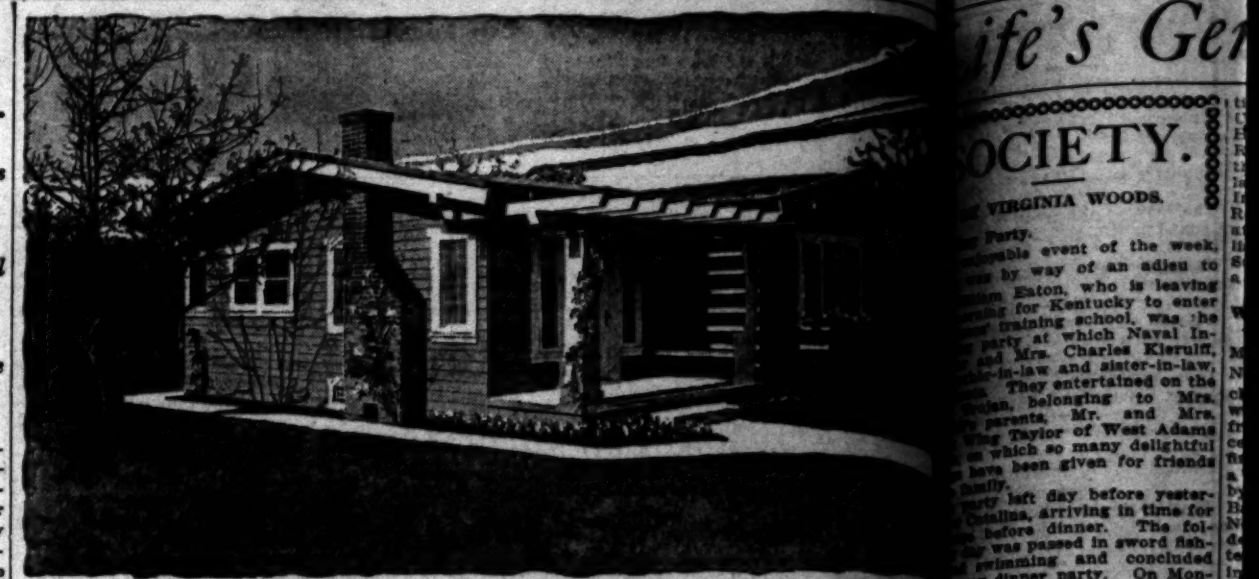

Besides causing the minor ailments of rheumatism, eczema, humors and backache, neglect of the kidneys is apt to develop into more serious diseases, such as diabetes or stone in the bladder.

Rid the body of toxic poisons—clean the bladder and kidneys and cure the twinges of rheumatism with Anuric and you win the battle of life.

Anuric was first discovered by Dr. Pierce, and has benefited thousands of sufferers as well as appeased and eliminated the ravages of the more serious kidney diseases. Now procurable at any good drug store, or sent direct to Dr. V. M. Pierce, Buffalo, N. Y., 10 cents for trial package.

MRS. B. G. COOKER says: "When I commenced the treatment of Anuric I was in bad shape. I had been aching all the time and I could not sleep at night. But since I have taken Anuric I am all right. My backache is all gone and I sleep good and sound. Oh, how much better I do feel—no the kidneys of kidney troubles is to give Anuric a trial and they will find relief from your trouble."

What is a Branch House?

The Branch House is the place in the packing organization where what the packing plant does for you is put where you can use it.

Both are the natural result of growth and development in the living thing they belong to.

Swift & Company Branch houses are located in distributing centers all over the country. They are fitted out with refrigerating equipment to keep meat cool, sweet and fresh.

Each one is in personal charge of a man who believes in what Swift & Company is doing for people and wants to help to do it.

They are directed by men who have spent years learning how to get better meat cheaper to the places where it is needed.

Meat is shipped to the branch houses direct from the packing plants in Swift & Company's refrigerator cars, in such quantities that it can be disposed of while fresh and sweet.

Your meat dealer comes here to buy your meat for you—unless someone else can treat him better than we can.

So you need the branch house in order to live well; and the branch house and the packing plant need each other, in order to be useful to you.

LETTERS TO "THE TIMES."

Portugal and the Allies.

LOS ANGELES, Sept. 4.—[To the Editor of The Times:] In the instructions of the local consular corps to the City Council as to the proper order in which the flags of the Allies ought to be displayed, the name of Portugal appears at the tail end. Why is this so? Did not the little republic come into the fight against the Hun ahead of Italy, Greece, the United States, China, Cuba, Armenia, Poland and the Czechoslovaks? If such is the case, then Portugal's flag is entitled to a more prominent position in the line. Although Portugal has not many press agents at front, it must not be forgotten that 60,000 sons of Lusitania are fighting bravely for liberty and humanity in the bloody battlefields of France and Flanders.

There will not only be the disadvantage of a lower interest return to those who fail to take advantage of this opportunity, but the market position of the 4 per cent. bonds is bound to be lower than the same security bearing interest at the rate of 4 1/4 per cent. which the time that Mr. Porter joined the army, holding that a man forced to become a soldier could not be charged with desertion.

NEW RED-CAR RATES BEGIN ON FIFTEENTH.

FURTHER DETAILS AS TO FARES ANNOUNCED BY PACIFIC ELECTRIC AGENT.

O. A. Smith, general passenger agent for the Pacific Electric Railway, announced yesterday that the new rate schedule recommended by the State Railroad Commission will go into effect about the 15th inst.

Interurban fares will be figured on the basis of 3 cents a mile one way or 5 cents per mile for round trips.

The mileage schedule will not apply between Los Angeles and the beaches, from Santa Monica on the north to Seal Beach on the south, but this fare will be increased from 35 cents one way and 60 cents round trip to 40 cents one way and 70 cents round trip.

In constructing one way, round trip, ten and thirty-ride commutation fares from Los Angeles a blanket fare of 5 cents will be applied for the first five and one-half miles and mileage rates beyond that will end in denominations of 1 cent instead of 5 or 10, as formerly. The distance from Los Angeles to Covina is 21.75 miles; deducting five and one-half miles leaves 16.25 miles at 40 cents per mile, which amounts to 65 cents, and adding 5 cents for Los Angeles city fare, makes the total one-way fare 70 cents from Los Angeles to Covina.

The sixty-ride commutation fare between Los Angeles and Long Beach or between Los Angeles and Seal Beach, which is used to a considerable extent by employees of the shipbuilding plants, will be \$9.20. This is figured at rate of 7 1/2 cents per mile on the distance between Los Angeles and Long Beach, 20.45 miles.

Coming to the United States Krauth became acquainted with a young woman in Fort Smith, Ark., whose parents, the testimony showed, wished to compel her to enter the district of ill fame in that place. "Krauth, although a married man, brought the girl, who is 20 years old, to Los Angeles, with the consent of the parents.

Since the arrest of Krauth, the young woman has been placed in the care of a sister, and she is trying to make amends for past mistakes.

FURTHER DETAILS AS TO FARES ANNOUNCED BY PACIFIC ELECTRIC AGENT.

Interurban fares will be figured on the basis of 3 cents a mile one way or 5 cents per mile for round trips.

The mileage schedule will not apply between Los Angeles and the beaches, from Santa Monica on the north to Seal Beach on the south, but this fare will be increased from 35 cents one way and 60 cents round trip to 40 cents one way and 70 cents round trip.

In constructing one way, round trip, ten and thirty-ride commutation fares from Los Angeles a blanket fare of 5 cents will be applied for the first five and one-half miles and mileage rates beyond that will end in denominations of 1 cent instead of 5 or 10, as formerly. The distance from Los Angeles to Covina is 21.75 miles; deducting five and one-half miles leaves 16.25 miles at 40 cents per mile, which amounts to 65 cents, and adding 5 cents for Los Angeles city fare, makes the total one-way fare 70 cents from Los Angeles to Covina.

The sixty-ride commutation fare between Los Angeles and Long Beach or between Los Angeles and Seal Beach, which is used to a considerable extent by employees of the shipbuilding plants, will be \$9.20. This is figured at rate of 7 1/2 cents per mile on the distance between Los Angeles and Long Beach, 20.45 miles.
